GLOBAL THINKING, LOCAL ACTION

Under the umbrella of the United Nations (UN), the international community has committed itself to 17 global goals for a better future. They serve to ensure global, sustainable development on an economic, ecological and social level.

We are fully committed to the Sustainable Development Goals (SDG) agenda. And wherever we, as an international company, can make a meaningful contribution to the fulfilment of these major goals at a local level, we do so.

SUSTAINABLY CERTIFIED

It is the responsibility of all of us to safeguard the natural foundations of life for future generations. At teamdress®, we want to do our part to preserve the environment's ability to regenerate. That's why we do everything we can to produce long-lasting workwear in a way that conserves resources as much as possible. Our declared aim is not just to be a little bit sustainable, but to be 360° sustainable.

We don't just leave it at fine words, we put our money where our mouth is. In order to communicate our commitment to sustainability as transparently as possible, we have it regularly audited by competent experts and institutes. The large number of certificates from leading institutes proves this: We are on the right track.
